Intern Name	Ibrahim Hasan
Student ID	2110316
University	Independent University, Bangladesh
Department	Management Information System (MIS)
Supervisor	Ayan Chowdhury (Sr. Officer, ICT)

(Daily Progress Report)

Day #	Date #
5-6	24th May 2026

(Daily Report)

Task Assigned:

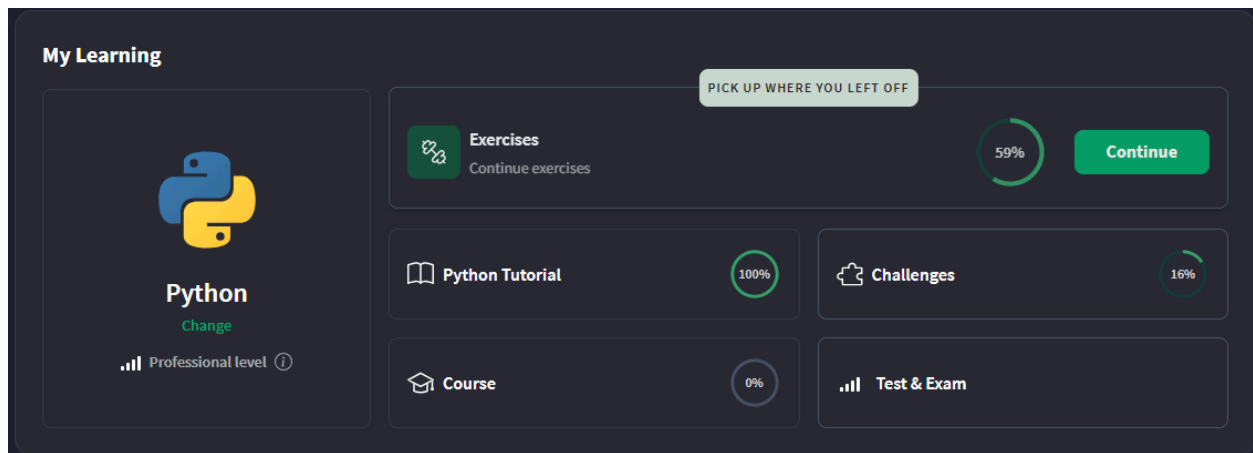

Learn and revise Python from W3Schools.com

Learning Outcome:

Gained a better understanding of Python basics including variables, data types, operators, strings, conditional statements, loops, functions, and basic problem-solving skills.

Work Completed:

- Revised Python syntax and basic concepts
- Practiced variables, data types, and type conversion
- Learned and tested arithmetic, logical, and comparison operators
- Worked with strings, slicing, and string methods
- Understood if-else conditions and loops
- Practiced basic functions and input/output programs

Problems Faced:

- Confusion between / and // operators
- Difficulty understanding string slicing at first
- Mistakes in logical operators (and, or, not)
- Errors in indentation while writing code

Solution Attempted:

- Practiced more examples from W3Schools exercises
- Reviewed explanations of operators and string indexing
- Wrote small programs to test each concept
- Corrected indentation by carefully following Python syntax rules
- Repeated exercises until concepts became clear
